PROFESSIONAL SUMMARY

I am a motivated Full-Stack Developer and Information Technology Educator with experience building and deploying modern web applications using React, ASP.NET Core, PostgreSQL, and Docker. Through self-directed learning and project-based development, I have designed cloud-hosted APIs, implemented database-driven systems, and delivered full-stack solutions using modern development practices. Alongside my software development experience, I currently work as an IT Teacher, developing technical learning materials, mentoring students, and strengthening communication and problem-solving skills. I am seeking opportunities where I can contribute technical expertise while continuing to grow as a software professional.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript (ES6+), Java, SQL, Python, PHP, C++
Frontend Development: React.js, Vite, HTML5, CSS3, JavaScript
Backend Development: ASP.NET Core, ASP.NET Core MVC, Entity Framework Core, REST APIs
Databases: PostgreSQL (Neon), MySQL, SQLite
Cloud & DevOps: Docker, Render, Vercel, Linux CLI, GitHub
Tools & Platforms: Git, GitHub, Swagger, Postman, WordPress, MS Office
Professional Skills: Teaching, Tutoring, Communication, Leadership, Problem Solving, Debugging

EDUCATION

University of the Witwatersrand, Johannesburg, South Africa 2022 – 2024
BSc Computer Science (Incomplete, did 2 out of 3 years)

- Completed coursework in Data Structures, Algorithms, Software Design, Discrete Mathematics, and Object-Oriented Programming.

Mida English Medium Christian School 2018 – 2021
National Senior Certificate (Matric)

CERTIFICATIONS

Google Cybersecurity Professional Certificate Oct 2025
Full Stack Development Certificate (FNB App Academy / IT Varsity) Jun 2025
Cisco Networking Academy: JavaScript, HTML, and CSS Essentials In Progress

PROFESSIONAL EXPERIENCE

Information Technology Teacher Current

- Teach Information Technology concepts including programming fundamentals, algorithms, computer systems, and software development principles.
- Develop lesson plans, practical exercises, and assessments to improve student technical proficiency.
- Provide mentorship and academic support to learners pursuing technology-related subjects.
- Utilize digital tools and productivity software to manage learning content and classroom administration.

Grade 12 Mathematics Tutor, Enoch Mamba Senior Secondary & Tech Institution 3 February 2026 – 10 May 2026

- Provide academic tutoring and problem-solving support to Grade 12 learners.
- Assist students in strengthening analytical thinking and mathematical reasoning skills.

Transformation Officer, Wits Mathematical Sciences Student Council 2024

- Provided academic support and mentoring for students in Mathematical Sciences.
- Coordinated initiatives that improved access to student resources and documentation.
- Assisted with reporting, scheduling, communication, and administrative coordination.

PROJECTS

GameStore: Full-Stack Web Application (.NET 10, React, PostgreSQL)
GitHub: Repository Live Demo: Live Demo

- Developed and deployed a full-stack web application using ASP.NET Core, React, PostgreSQL, Docker, Render, and Vercel.
- Implemented full CRUD functionality, RESTful APIs, DTOs, and secure client-server communication.
- Integrated Entity Framework Core with PostgreSQL and cloud-hosted database infrastructure.
- Containerized backend services using Docker and deployed production-ready environments.

CareerFlow: Full-Stack Web Application (ASP.NET Core MVC, React) (In Progress)
GitHub: Repository

- Building a full-stack application with ASP.NET Core MVC while deepening my understanding of the MVC pattern.

Home Services Marketplace: HTML, CSS, JavaScript (In Progress)
GitHub: Repository

- Designing a service-booking platform connecting customers with local service providers.
- Developing responsive interfaces and dynamic user interactions using JavaScript.
- Planning migration to ASP.NET Core and PostgreSQL for authentication and data management.

MovieDen: React & API Integration
GitHub: Repository Live Demo: Live Demo

- Built a movie discovery platform integrating real-time data from the TMDB API.
- Implemented search functionality, state management, and responsive design principles.
- Improved user experience through efficient API consumption and dynamic rendering.

ACHIEVEMENTS

- Recipient of the Wits Entrance Scholarship.
- BRICS Future Skills Programme Attendee (2022, 2023).
- Top Academic Performer in Physical Sciences (2019, 2021).
- Successfully completed multiple cloud-deployed full-stack software projects using modern web technologies.
